02. District Web Site

Overall technical management of Unnao District web site <http://unnao.nic.in> is carried out by NIC. Time to time different news and advertisement (like recruitment and tender notice) are added to it.

(For Details, please visit: <http://unnao.nic.in>)

03. Arms Licensing system

All necessary technical support provided for 'Arms Licensing system' - a project developed and maintained by NIC. Time to time district administration ask NIC to find different types of report return as per requirement using the Arms Licensing System database.

(For Details, please visit: <http://homecontrol.up.nic.in/>)

04. Motor Vehicle Computerization

National level software VAHAN has been implemented and running successfully at RTO Office. Registration, Transfer of Owner ship, NOC, Fitness, Tax Collection of private and commercial vehicles are processed through this application software. Necessary technical support and training to new user provided by NIC. Times to time various patches are also implemented for necessary up gradation of the running version.
(For Details, please visit: <http://parivahan.nic.in/>)

05. NATIONAL ANIMAL DISEASE REPORTING SYSTEM (NADRS)

Under this Scheme, it is proposed to introduce an online disease reporting system in the country in the form of National Animal Disease Reporting System (NADRS). In the proposed system, a dedicated computer network will be established linking each Block of the District to the District head quarter, each District of the State to the State headquarter, and each State to the Country's Central Unit. The information available at the Block level would be electronically transmitted to the District Veterinary office as well as the State office. Finally from all the States the information would be compiled and transmitted to the Centre at the Department of Animal Husbandry and Dairying.

06. The Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA)2005 Information system

The national level project NREGA software along with it's MIS has been implemented over all the blocks and GPs of the Unnao district. The system is running very successfully. Necessary technical supports for this software are provided time to time by NIC.

(For Details, please visit: <http://nrega.nic.in>)

07. District Court Computerization (E-Court) and CONFONET Project

The technical guidance has been provided to the district level committee of upcoming E-court project in order to prepare the estimate for the site preparation. Necessary system training imparted to all the judges of district court for suitable operation of their laptop.

National level project 'CONFONET' is successfully commissioned and running smoothly at District Consumer forum. Necessary training and technical guidance provided for daily updating of case details from their end. The necessary technical help is provided by NIC.

(For Details, please visit: <http://indiancourts.nic.in> and <http://confonet.nic.in>)

08. Registry Office (PRERNA) Software

Prerna — a software designed by the National Informatics Centre exclusively for this purpose — the registration process is not just computerized but even less time consuming. In case one needs to get a property registered in his or her name, all they need to do is to go to the tehsil office of the Registration department. While the webcam installed at the computer section will take a spot photograph of the person and immediately store it in its records, the biometric fingerprint device will take fingerprints instead of the old method of using a stamp pad. The Prerna software also has preloaded DM circle rates which will instantly calculate the stamp value of the property to give exact details of the amount.

(For Details, please visit: <http://registryoffice.up.nic.in/>)

09. Pre and Post Matric Scholarship System

Post Matric Scholarship System has been successfully implemented and customized for Unnao District. Block-GP wise, Bank wise and school wise advice for scholarship amount has been generated with this system. A couple of individual and batch wise training has been provided in this regard. The necessary technical help is provided to run the system smoothly.

10. Jan Suvidha Kendra

Jan Suvidha Kendra is a complaint management system for the District Administration. This portal contain officers as well as guest login to check the complaint status. It also contain reports Divisionwise, District wise, Department wise,etc

(For Details, please visit: <http://jansuvidha.up.nic.in/jsk/User/default.aspx/>)

11. Video Conferencing activity

National level Video Conferencing setup has been installed and implemented in the district. The system has been managed and operated successfully for intra district and intra state level conferencing. Also conducted Video conferencing session and troubleshooting problem arises during session.

12. ICT support services

ICT support & Internet services to different State and Central Government Departments like Postal, Agriculture and others are provided. Technical Support has been provided to maintain the District LAN. The facility of NICNET email services are frequently used by district administration.
